All cloths and materials in close proximity to the candle or lit item are to be fire retardant and exhibitors must provide a fire extinguisher at the stand where naked flames are displayed. Flames are to be extinguished 15 minutes prior to the stand being vacated at the end of the day. It is a basic safety precaution not to leave a stand unattended while candles are alight.

Please see [Naked Flames Permit Form](#).

It is recommended that exhibition booths considering a covered ceiling use materials that are water permeable. If design or stored stands require a non-water permeable ceiling please submit your plans for review together with the appropriate certificates (see ICC Sydney Custom Stand Plans Permit Form for more details).

Please note that each non-water permeable ceiling will be considered on a case by case basis. Stands with non-water permeable ceilings as a minimum must be fitted with an automatic battery backup smoke detector
