

## Professional recording space for podcasting, interviews and on-demand content

ICC Sydney's Media Studio can be configured for live-streamed or recorded podcasts, interviews, panels and speaker presentations. Ideal for storytellers, thought leaders, event organisers, speakers, brands and content creators looking to capture engaging content - ICC Sydney's Media Studio and production services support knowledge exchange and extend your impact.

The **Media Studio** is a flexible studio space that can be configured to suit a variety of recording styles. With an integrated green screen technology, it is ideal for podcasts, presenter-led discussions and structured interviews with custom visual backdrops.
