

## Professional recording spaces for podcasting, interviews and on demand content

ICC Sydney's dedicated Podcast Studios are configured for podcast production, recorded interviews or to simply have "A Quick Yarn" (*Australian phrase meaning to have a conversation*). Located conveniently within ICC Sydney, the studios provide a professional recording environment supported by broadcast-quality equipment and experienced technical delivery.

Ideal for storytellers, thought leaders, event organisers, speakers, brands and content creators looking to capture engaging content - ICC Sydney's Podcast Studios and production services support knowledge exchange and extend your impact.

**Studio One** features a podcast desk and seated configuration, suited to traditional podcast formats, presenter-led discussions and structured interview recordings.

**Studio Two** offers a relaxed lounge-style configuration with couches and a coffee table, creating a more informal environment for conversational podcasts, interviews and relaxed discussion formats.
